Brief 03 of 05

Customer Analysis

Who to prioritise, when they visit, why they choose La Mirajh, and how to prove it.

1 Audience priorities 2 Occasion map 3 Customer journey 4 Validation panel

Café La Mirajh, Anna Nagar East · W&W brand development programme from 1 Nov 2026 · Evidence observed 21 Oct 2026

Q WHO SHOULD LA MIRAJH PRIORITISE?

Friend groups first, couples second, hosted gatherings only selectively.

PRIMARY

Local friend groups

WHO (H)	About 20–30: final-year students, early-career professionals
WHERE (H)	Anna Nagar E/W, Shanthi Colony + a 15–20 min ring
GROUP · WHEN	3–5 friends · 18:00–23:45, all week
SPEND (H)	≈ ₹350–600 per guest (estimate)

Why: more seats per table, they use rooftop, PS5 and shared food together, and can return weekly.

Priority score 22 / 25

Fit 5 · Reach 5 · Spend 3 · Repeat 5 · Ops 4

SECONDARY

Couples

WHO (H)	About 22–35: dating, engaged or young married
WHERE (H)	Same catchment; a little further for a known spot
GROUP · WHEN	2 · 19:00–23:00, mostly Fri–Sun
SPEND (H)	≈ ₹1,000–1,500 per couple, i.e. ₹500–750 per guest

Why: higher spend per guest and a strong cosy-rooftop fit, but fewer visits and a need for quiet corners.

Priority score 19 / 25

Fit 4 · Reach 4 · Spend 4 · Repeat 3 · Ops 4

SELECTIVE OPPORTUNITY

Hosted small gatherings

WHO (H)	An organiser, about 20–35, booking for a group
WHERE (H)	Residents, offices and colleges within ≈ 20 minutes
GROUP · WHEN	6–15, pre-booked · Mon–Thu evenings
SPEND (H)	≈ ₹600–900 per guest as a set package (to be costed)

Why: highest spend per booking and fills quiet nights, but repeats less and can crowd out regulars.

Priority score 16 / 25

Fit 4 · Reach 3 · Spend 5 · Repeat 2 · Ops 2

DEPRIORITISED

Daytime laptop workers

India Brew House and The Board Room already serve daytime work [1,2]. A daytime rooftop in Chennai heat is a weak setting (H).

Priority score 15 / 25

Fit 2 · Reach 4 · Spend 2 · Repeat 4 · Ops 3

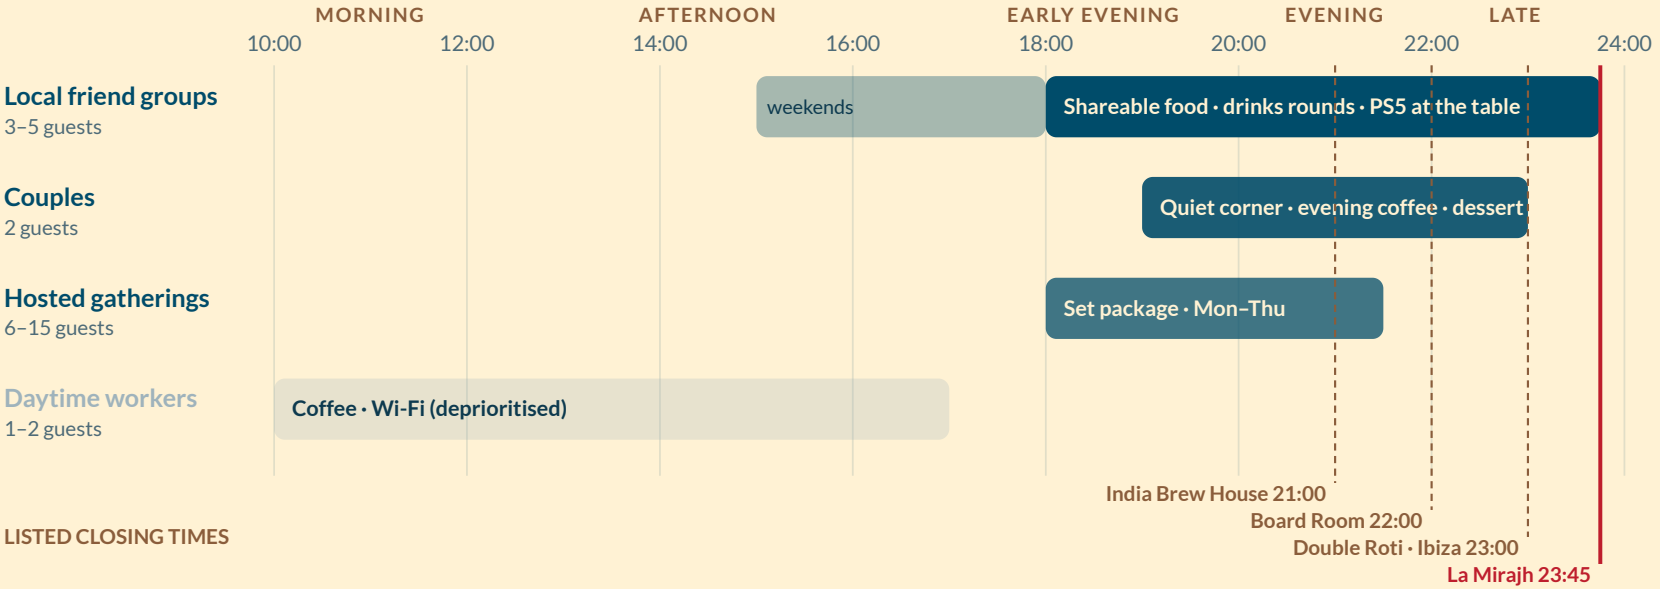

IMPLICATION → Design the evening around the **friend-group table**, protect couples' corners, keep gatherings to quiet nights. The manual's wider audience list becomes secondary [3].

(V) Observed in public listings (21 Oct 2026) (C) Client-stated (S) Strategist interpretation (H) Hypothesis to validate

Scores and audience details are strategist hypotheses

Q WHEN, WHY AND WITH WHOM DO THEY VISIT?

Evenings carry the plan, and the 23:45 close makes late conversation a slot La Mirajh can own.

AUDIENCE	MOTIVATIONS H	OBJECTIONS H	RETURN TRIGGER S
Local friend groups	Space to sit for hours; enough seats together; a setting worth sharing; something to do when talk dips	Few reviews; no visible prices; worry about rain or heat on a roof	A standing weekly night and a host who remembers them
Couples	Privacy, soft light, a corner table, feeling looked after; "premium but not intimidating"	Noise from groups or gaming; smoke near tables; no way to book	Anniversaries and "our place": a reserved corner and a small surprise
Hosted gatherings	A reserved area, a fixed price per head, decoration allowed, one person in charge	Capacity doubts, weather risk, no package on offer	Guests who later return on their own; each event is a sample

IMPLICATION → Plan staffing, menu and lighting around **18:00–23:45**. Treat mornings and afternoons as secondary until trading data says otherwise.

V Observed in public listings (21 Oct 2026) C Client-stated S Strategist interpretation H Hypothesis to validate

Visit windows are hypotheses. Closing times from listings [4,5,6,7,8]; On De Roof and Living Room hours not found

Q WHERE DO POTENTIAL GUESTS DROP OUT?

Most potential guests are lost before they arrive, at discovery and comparison.

STAGE 1 Discovery

"Where can we go tonight?"

Checks: Reels, friends' stories, searches for "rooftop café Anna Nagar"

Barrier today: Website and Instagram could not be verified from our research environment; few indexed results

Fix: Consistent listings and real venue photography

● **Drop-off risk: High**

STAGE 2 Comparison

"Is it better than On De Roof or Double Roti?"

Checks: Ratings, photos, menu prices side by side

Barrier today: 0–16 ratings against rivals' thousands; conflicting cuisine tags; no item prices visible

Fix: A post-visit review routine and a published menu

● **Drop-off risk: High**

STAGE 3 Booking

"Can we get a table? Will it rain? Is the PS5 free?"

Checks: Booking options, hours, weather

Barrier today: Booking route and PS5 status unconfirmed; the Oct–Dec monsoon

Fix: A visible booking route and a rain plan

● **Drop-off risk: Medium**

STAGE 4 Experience

"Are we looked after? Can we stay?"

Checks: Seating, ordering, food, play, being able to linger

Barrier today: Unknown: needs an on-site audit

Fix: A hosting standard with a named host

● **Drop-off risk: Unknown**

STAGE 5 Return

"Why come back next week?"

Checks: A reason, a ritual, a person

Barrier today: No known loyalty mechanic or regular night

Fix: A weekly group night; ask for a review

● **Drop-off risk: High**

IMPLICATION → Fix proof before paying for reach: **reviews, real photos, a published menu and matching listings** convert the people already searching.

V Observed in public listings (21 Oct 2026) C Client-stated S Strategist interpretation H Hypothesis to validate

Drop-off risk is a strategist assessment. Listing evidence [9,8]; monsoon timing is general seasonal knowledge

Q HOW WILL WE KNOW WHETHER THESE AUDIENCES ARE RIGHT?

Two weeks of simple table tallies and 30 short conversations will confirm or correct the audience hypotheses.

	HYPOTHESIS (H)	TEST	MEASURE	WHAT IT DECIDES
H1	**Groups of 3+ make up most evening tables**	Tally party size for every table	Share of evening tables with 3+ guests	If low, rebalance messaging toward couples
H2	**Spend per guest is near the ≈ ₹500 listing assumption**	Average bill ÷ guests, by daypart	₹ per guest, weekly	If well below, push shareables and add-ons
H3	**Most guests come from within 15–20 minutes**	Ask the area travelled from (area only)	Share from the core catchment	Sets the radius for local reach
H4	**PS5 is an icebreaker, not the main reason to visit**	Note PS5 use per table; ask the main reason	PS5 tables; stated reasons	Decides how prominently to show PS5
H5	**Guests prefer the rooftop unless it rains**	Record seating choice and weather	Rooftop share, dry vs wet nights	Sizes rain cover and indoor fallback
H6	**Discovery happens mainly via Instagram and friends**	Ask "How did you hear about us?"	Share by channel	Where to put the first marketing effort

CONCLUSION

Lead with local friend groups and protect couples' evenings, then let six simple measures decide what to keep, scale or drop. Nothing here is a finding about customers until the tallies come in.

SHORT CONVERSATION GUIDE · PLANNED, NOT YET CONDUCTED

30 conversations over two weeks · 2–3 minutes each · at the end of the visit · consent first · no names or contact details

1. What brought you here tonight?
2. How did you hear about us?
3. Which area did you travel from?
4. Where else did you consider going?
5. What would bring you back next week?
